

REMARKS

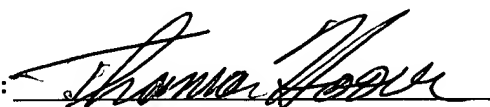

Claims 75-94 have been rejected based on obviousness type double patenting over the claims of U.S. 6,106,472, 5,964,709 and 5,957,846. A terminal disclaimer is enclosed to obviate this rejection. Claim 78 has been amended to clarify that the beamforming device can include more than one integrated circuit as described, for example, at page 54, lines 16-26, where different channels are processed with different circuit boards.

Reconsideration of the claims is respectfully requested.

The Examiner is encouraged to telephone the undersigned attorney to discuss any matter that would expedite allowance of the present application.

Respectfully submitted,

CHIANG ET AL.
